Western Lehigh Chamber of Commerce
Letter from the President

Ron Eichenberg, The Frederick Group
Western Lehigh Chamber President
(610) 398-0411 • ron@tfgrealtors.com

Western Lehigh Chamber joined the Greater Lehigh Valley Chamber and local officials in welcoming two businesses with ribbon cuttings.

The first was Allentown Foot Care which opened a fifth office at 24th and Walbert Ave in Allentown. It is a new 6300 square foot open concept medical office with private consultation offices and surgical facilities serves patients with six doctors and staff. Specific details are available at www.affc.com.
The second ribbon cutting was at Progressive Vision Institute The Eye Care Center at 5201 Hamilton Street in Wescosville. This facility is the second Lehigh Valley location joining seven other locations ranging from North Central PA to Philadelphia. The Wescosville location is a new 12,000 square foot clinic for eye diseases and disorders. The medical office includes a state-of-the-art outpatient surgery center, ophthalmology exam area, eyeglass/contact lens center and medical spa. More information is available at www.pvi-vision.com. We are proud to have these businesses join our Western Lehigh family and encourage their patronization.

A third ribbon cutting was held at the dedication of the Kratzer Elementary School in South Whitehall Township. Fellow Board member and Superintendent of Schools, Richard T. Sniscak, led the dedication which culminated an 18 month phased renovation that included a total refurbishment of the entire school. The overall design and technological innovations incorporated are a tribute to the efforts of the Parkland School District Administration and Board of Directors as they will enhance the educational experiences of its 400 students in grades K-5.
