

**The Business of the Month spotlight is shining on Herpel's Auto and Truck Lifts, 5687 Handwerk Rd., Germansville, PA 18053.**

**The company provides automotive and truck service lifts- sales, service, and installation. Their products include the Rotary Lift and Revolution Lift and they are an authorized distributor and installer. They also are a distributor for Garage Products Inc. which specializes in shop exhaust system products.**

**Owners Will and Pam Saks purchased the business in 2005. The business was originally started by Martin and Sally Herpel in 1974.**

**Per Will, "We have three full time and three part time employees, servicing all of Eastern PA and Western NJ. We service your various local automotive repair shops and car dealerships, by repairing, maintaining or replacing their vehicle lifts. With the growth of our business we would like to hire 1-3 new employees and turn our part time positions into fulltime ones."**

**"We can now work with the shop owner or their architect to properly design the lift layout of any type of shop, including putting final design into Auto CAD file form. This is very helpful for budgeting, zoning/permits, etc. and can potentially increase profits and reduce costs for the customer."**

**If you would like more information on Herpel's Auto and Truck Lifts, you can contact them at: Phone: (610)767-9262, Fax: (610)760-8049, Email: [herpels@hotmail.com](mailto:herpels@hotmail.com).**
