“I am very glad to announce that Northampton’s new “Uptown Park” is complete and OPEN for business!

Located in the west side of the 2000 Block of Main Street, the “Uptown Park” ... as it has been named” ... is a wonderful slice of greenery with a majestic water fountain, a bell-shape roofed sizeable gazebo and beautiful landscaping, all right in the middle of our “Uptown” shopping area. If you’re looking for a nice place to hang out before your movie at the Roxy, take in the sunshine on a nice warm day, or even enjoy your lunch from the Main Street Restaurant, Assanti’s, or any of our other fine eateries, this Park is certainly the spot.

I’m all the more proud of our Northampton Area Chamber as we, with a matching grant from the Greater Lehigh Valley Chamber Foundation, donated the two Pergolas that are situated on both the north and south sides of the Park. Without the Foundations generosity and commitment to our Lehigh Valley “downtowns,” this donation would not have been possible. To the Foundation, we here at the NACC wholeheartedly say “Thank You”. Know too, that both pergolas have a nice bench within them and provide a great view of the cascading waterfall in the fountain.

Though the Park is in it’s infancy, the landscaping, planted and designed by our own “Appalachian Creations” and owners Joe and Jenn Stummer, will provide much shade and a kaleidoscope of color in the upcoming years. Truly, a wonderful addition to our “Uptown” Main Street here in the Borough.

So next time you’re traveling through Northampton, do stop by the park, get a cup of coffee at the adjoining “Taylor Roast” or some lunch at the nearby restaurants, even throw a penny in the fountain and make a wish ... and simply enjoy the nice, relaxing atmosphere a park like this provides.
