

## **Business of the Month**

### **Frey & Company, CPAs**

You might think that a certified public accounting firm would be all about the numbers. Naturally, numbers are important for Frey & Company, but the root of success for the 12-year-old business in Walnutport has been its relationships with people – clients, employees and neighbors.

“We are a full-service accounting firm and we stand out because we offer excellent customer service and a hands-on approach with our clients,” says Gary Frey, who is an active Chamber participant and community partner. “We really get to know them, what they need and what we can do to help them.”

Gary founded the firm after working several years with a large regional accounting firm and his goal was to provide that same breadth of service at a reasonable price. Located at 121 N. Best Avenue, Frey & Company started with Gary and one full-time employee and has grown to a team of 15 managed by Dan Nemura.

Gary, Dan and the team serve clients throughout the Lehigh Valley as well as Carbon County and plans are underway to open a satellite office in Bethlehem this fall to provide office hours by appointment to clients. In addition to accounting services, Frey & Company also offers Quick Books software, training and consulting services, all of which are targeted for expansion.

For more information or to inquire about accounting services and Quick Books, please call 610-760-8920 or go to [www.freycpas.com](http://www.freycpas.com).
